

Ethanol Production Grants Program

Programme Closed

The Ethanol Production Grants (EPG) Program was designed to support production and deployment of ethanol as a sustainable alternative transport fuel in Australia.

The EPG Program provided full excise reimbursement, at the excise rate, to ethanol producers for ethanol produced and supplied for transport use in Australia from locally derived feedstock.

Funding Provided

The Program provided \$839 million in funding. The Program closed on 30 June 2015.
