Project Objective Components

This project builds on the current energy project (SEDAP) and the proposed development objective is to improve the reliability of electricity supply, expand access to electricity, and increase the share of renewable energy. Proposed components include Improving Electricity Supply and Reliability in Pohnpei; Improving Energy Access in Chuuk; Technical Studies and Project Management. Given the current stage of the proposed project, the development objective may changed based on current discussions.

To improve reliability of electricity supply, expand access to electricity, and scale up renewable energy generation.

Has the Project Development Objective been changed since Board Approval of the Project Objective?
No

Components

Improving Reliability of Electricity Supply in Pohnpei State:(Cost \$11.80 M)

Expanding Access to Electricity in Chuuk State:(Cost \$3.45 M)

Scaling up Renewable Energy Generation in Chuuk, Yap and Kosrae States:(Cost \$9.90 M)

Institutional Strengthening and Capacity Building in the Energy Sector:(Cost \$1.90 M)

Technical Assistance and Project Management:(Cost \$2.95 M)
